- We are working on organizing and finding direction for the committee
  - We may want to re evaluate our guiding principles
    - Presenting an annual platform to the general HSC membership
    - Anyone can propose agenda items, speak at meetings or participate in any way
- Future topics: reducing incarceration and what role housing can play in reducing the recidivism cycle (Heidi Wegleitner possibly presenting)
- The Committee Chairs will send out a Doodle poll early next week regarding times for our meeting that work for more people
- Ulysses- The Homeless Issues committee has new rules and will start at 5pm on the first Monday of the month, it is no longer connected with the City and the County will host it; people who want to participate need to submit a request to speak thirty minutes before the committee starts or they will have to wait.
  - We could have one person share to the HSC listserv when the meetings are and how to participate, register and attend-this is already in the works
- Chara- talk to people with lived experience and find out what they need so we can help put them in a place to get what they need, lived experience committee is welcome to come to meetings and give input
  - Action Step- Chara will work on collaborating with Lived Experience Committee
- Ulysses- planning a speak up from the homeless community from the HIC, they have people with lived experience, perhaps they can join us too
- ACTION STEPS FOR OUR COMMITTEE
  - Consider - Should we create an annual platform to present to the Homeless Services Consortium? (is it worth our time?)
