 - f. **Healing House**
 - g. **The Beacon**
 - h. **DAIS**
 - i. **BriarPatch**
 - j. **Safe Haven**
 - k. **Off the Square Club**
4. **Reimagine Coordinated Entry & shelter HMIS data**
 - **Discussion on how intake and case managers will input the new data required by Clarity HMIS for already existing clients who attend programs every day.**
5. **Shelter exit for no contact**
 - Night-by-night shelters are instructed to exit individuals who have not used the shelter for 30 days. No auto exit feature in HMIS is used.
 - Outreach programs are instructed to exit individuals who have had no contact for 90 days. An auto exit in HMIS is set up after 120 days of no contact.
 - There is a concern that individuals who are unsheltered may receive a longer length of homelessness credit in Tier 1 assessment. Conversely, shelter guests may get higher points for frequent enrollments.
 - **Should we consider aligning these policies by implementing a uniform exit criteria (e.g. exiting individuals with no contact within 60 days) to ensure consistency across both shelter and outreach programs?**
6. **Miscellaneous/walk-on items (as time allows)**
7. **Next meeting**
